

- 1 Proposed pedestrian entry and an access path from Robinvale Avenue to the reserve, considering construction methods that minimise impacts on existing trees.
- 2 Proposed nature play area with picnic facilities and additional amenities (bins and drinking fountain with dog bowl).
- 3 Install wayfinding signage, including directions to the Whittlese Public Garden toilet block.
- 4 Upgrade the existing gravel section of the path to a concrete path.
- 5 Proposed granitic pathway from Barry Road entrance.
- 6 Improve the pavilion forecourt with flexible open space, drinking fountain and bins.
- 7 Install bike racks.
- 8 Provide a concrete path linking the pavilion to the existing path and playground.
- 9 Proposed path connecting the pavilion to the second soccer pitch, with seating provided along the path.
- 10 Provide granitic path and seating next to the second court to support viewing opportunities.
- 11 Proposed yellow top raised crossing.
- 12 Proposed solar lighting along main pathway and in the car park area.
- 13 Upgrade the existing gravel path to a granitic sand path.
- 14 Provide a multipurpose half court (netball and basketball), with seating.
- 15 Proposed multi station fitness equipment.
- 16 Provide seating area along pathways.
- 17 Proposed new pedestrian entry and path from Fig Terrace, connecting to the existing path network.
- 18 Install additional wayfinding signage.
- 19 Increase shade through tree canopy planting.
- 20 Remove understorey planting and overgrown vegetation to improve sightlines.
- 21 Upgrade the existing footpath to a 2.5m shared path connections.
- 22 Upgrade the swales to ensure adequate drainage and mitigate seasonal ponding.
- 23 Upgrade existing reserve fencing to meet council standards.

Existing concrete path	Proposed drinking fountain	Proposed bin	Proposed trees
Granitic sand path (1.5m)	Proposed way finding signage	Proposed seat	Site boundary
Proposed concrete path (2.5m shared path)	Proposed bike rack	Existing tree	Proposed lighting
