

1. Realign the existing bollards to enable pedestrian entry and provide a footpath connection from Crampton Crescent to the existing shared path.
2. Proposed playspace including a variety of play experiences, such as nature based and sand play areas (long term).
3. Proposed shelter with picnic settings, drinking fountain and bins.
4. Proposed half basketball court.
5. Improve the pavilion forecourt by introducing flexible open space, formalised green spaces, spectator seating, shelter, bins, and a drinking fountain.
6. Enhance entry nodes with wayfinding signage and feature landscaping.
7. Proposed a DDA compliant path connecting the pavilion to the existing shared path.
8. Proposed bicycle repair station and bike rack.
9. Proposed a pedestrian entry and path from Grenda Driven.
10. Review the existing playground at the end of its life to identify the best option to meet future community needs.
11. Provide drinking fountain with a dog bowl and bin at the existing playspace.
12. Proposed seating along the shared path and adjacent to the southern pitch.
13. Formalise the vehicle access (emergency access path) and undertake necessary repairs to the retaining wall.
14. Proposed bike racks.
15. Introduce artwork on the existing storage container to improve the aesthetic quality of the open space.
16. Proposed outdoor fitness equipment.
17. Proposed social seating and gathering areas at the viewpoint.
18. Increase shade through more canopy cover along paths.
19. Upgrade the swales to ensure adequate drainage from grassed areas.
20. Provide a path linking the existing car park and shared path to the existing playspace, and create a loop path.
21. Proposed solar lighting along the new pathway connection and the relevant section of the shared path.
22. Upgrade subsided path to address crossfall non-compliance.
23. Investigate removal of the existing storage container as part of the pavilion upgrade works.
24. Remove overgrown vegetation and selected understory planting to improve sightlines.
25. Upgrade existing reserve fencing to meet council standards.
26. Provide pedestrian entry and a pathway connection alongside the car park and consider solar lighting options within the car park.
27. Increase the fence height along this side of the soccer pitch to prevent balls from entering the playground.
28. Investigate upgrading and opening the existing public toilet in the pavilion as part of the landscape improvement works.

- Existing concrete path
- Granitic sand path 1.5m wide
- Proposed concrete path 2-2.5m wide
- Proposed drinking fountain
- Proposed way finding signage
- Proposed bike rack
- Proposed bin
- Proposed trees
- Existing tree
- Proposed seat
- Overhead power lines
- Proposed solar lighting
